2025

Fabuluxe Interiors' is a journey in search of a complete single entity, of refined taste and in continuous evolution. **A way of living that's memorable.**

KITCHENS

Kitchens That Create a visual experience via projects designd to become architectural statements.

Fabuluxe Interiors has always been synonymous with high quality, without forgetting the functionality of its components and the careful choice of sustainable materials.

Shapes and sizes conceived by the best designers to steal the show in current and refined spaces, embracing a concept of living that places the excellence of design.

A way of living that's memorable.

Fabuluxe exterior door collection is born from continuous technical and stylistic research. This unique range is made up of a diverse selection of modern custom-made designs. The versatility of the collection is underlined by the wide range of Aluminium, Steel, Brass, Copper, Glass, Wood and Stone finishes, which can be combined with one another to create a unique door up to 18' high and 10' wide.

Exterior Doors

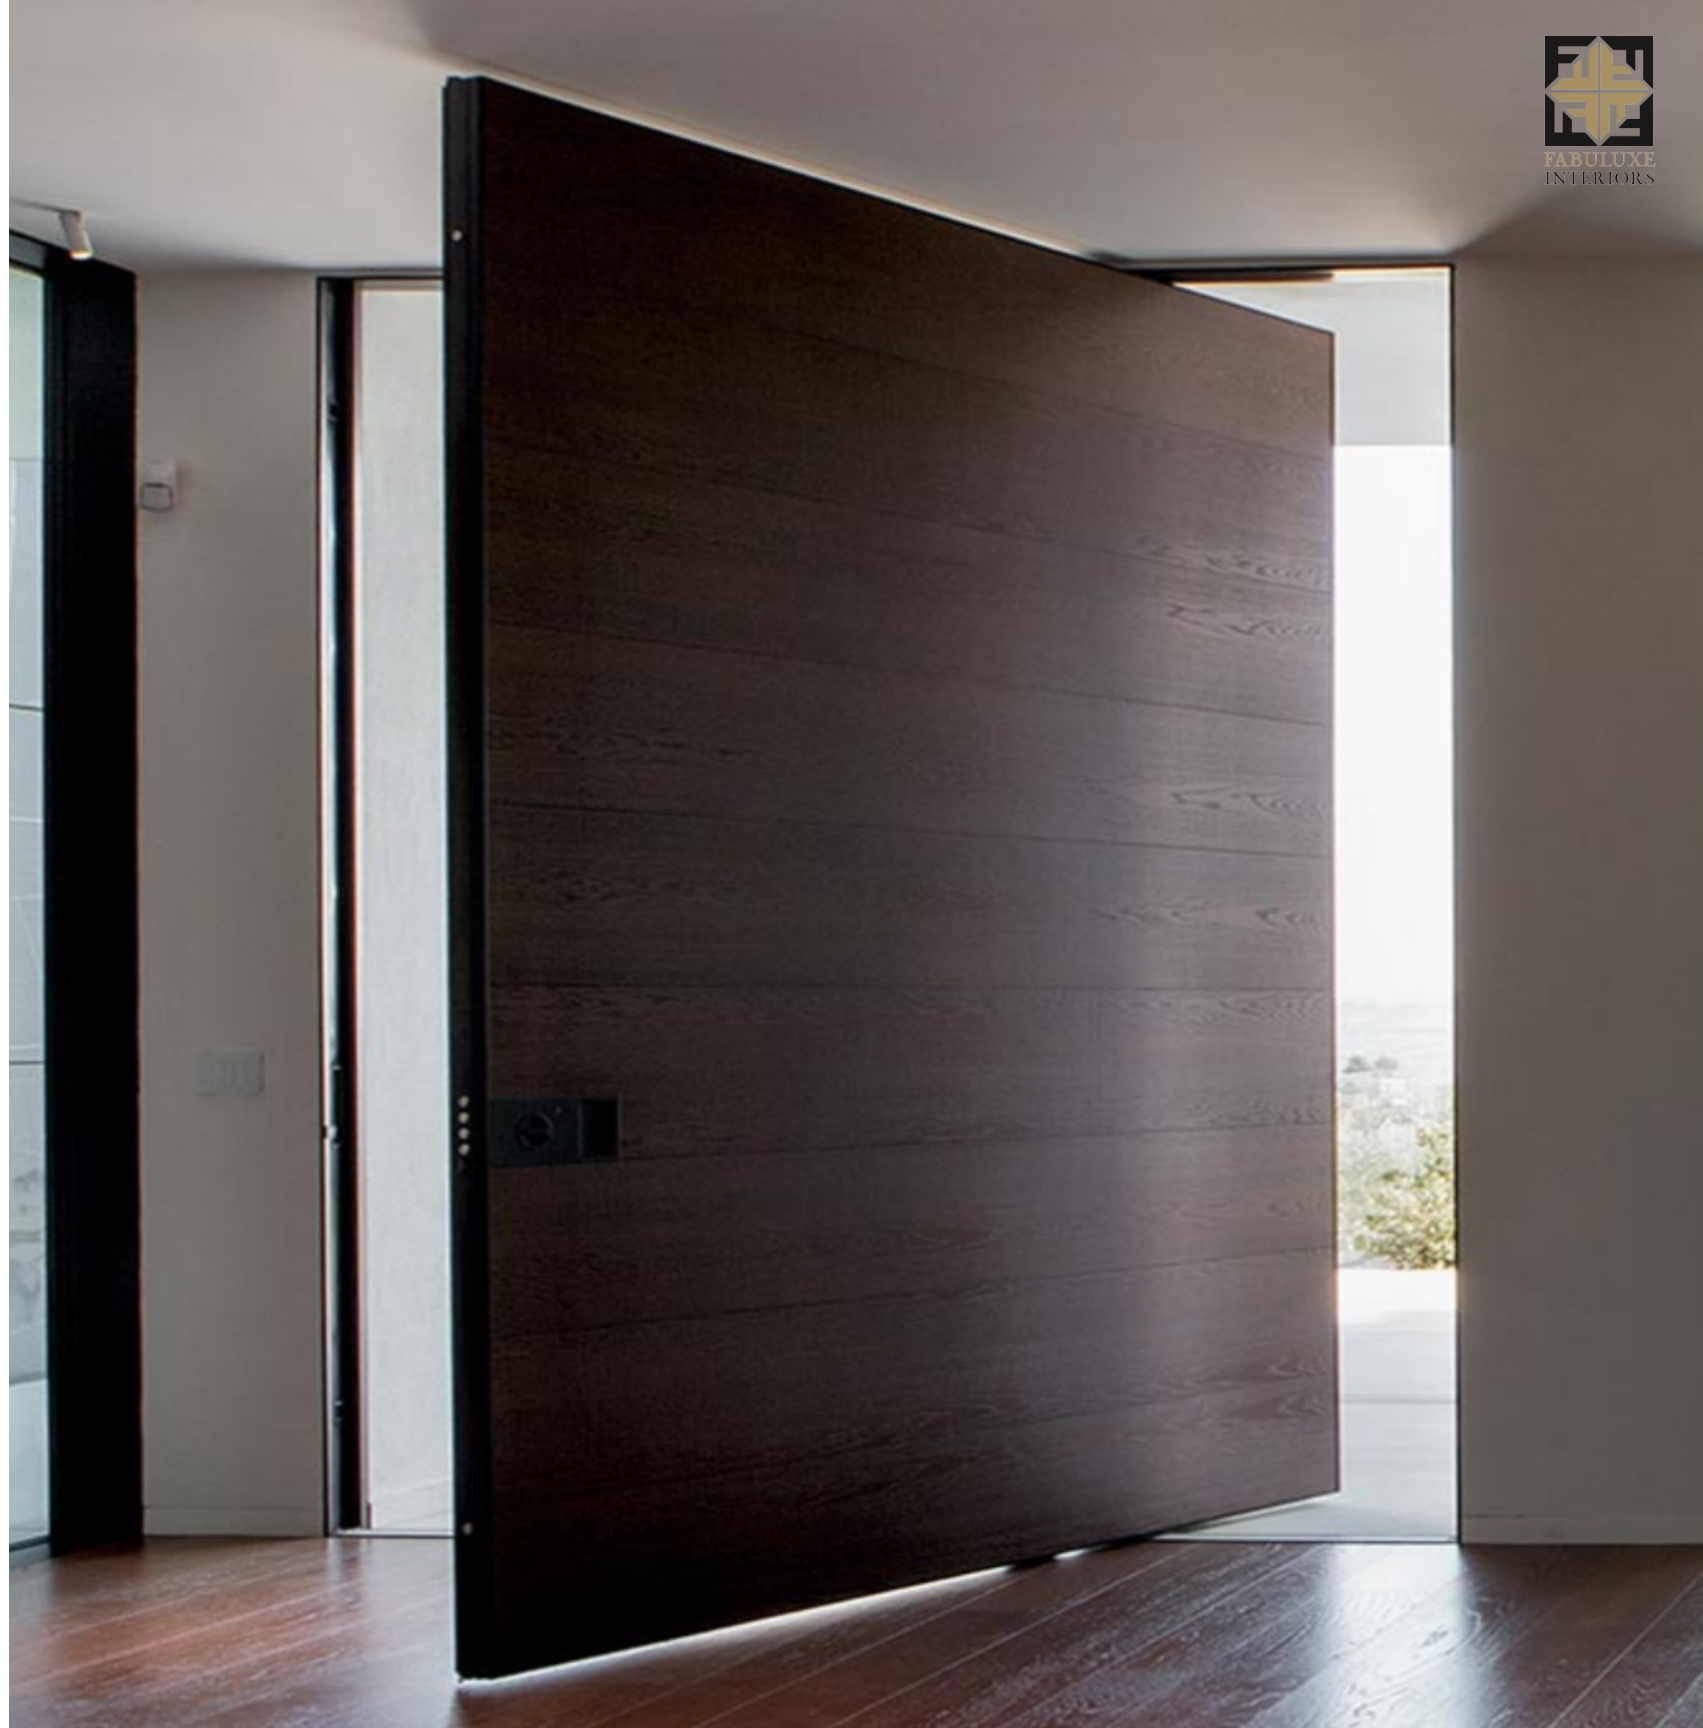

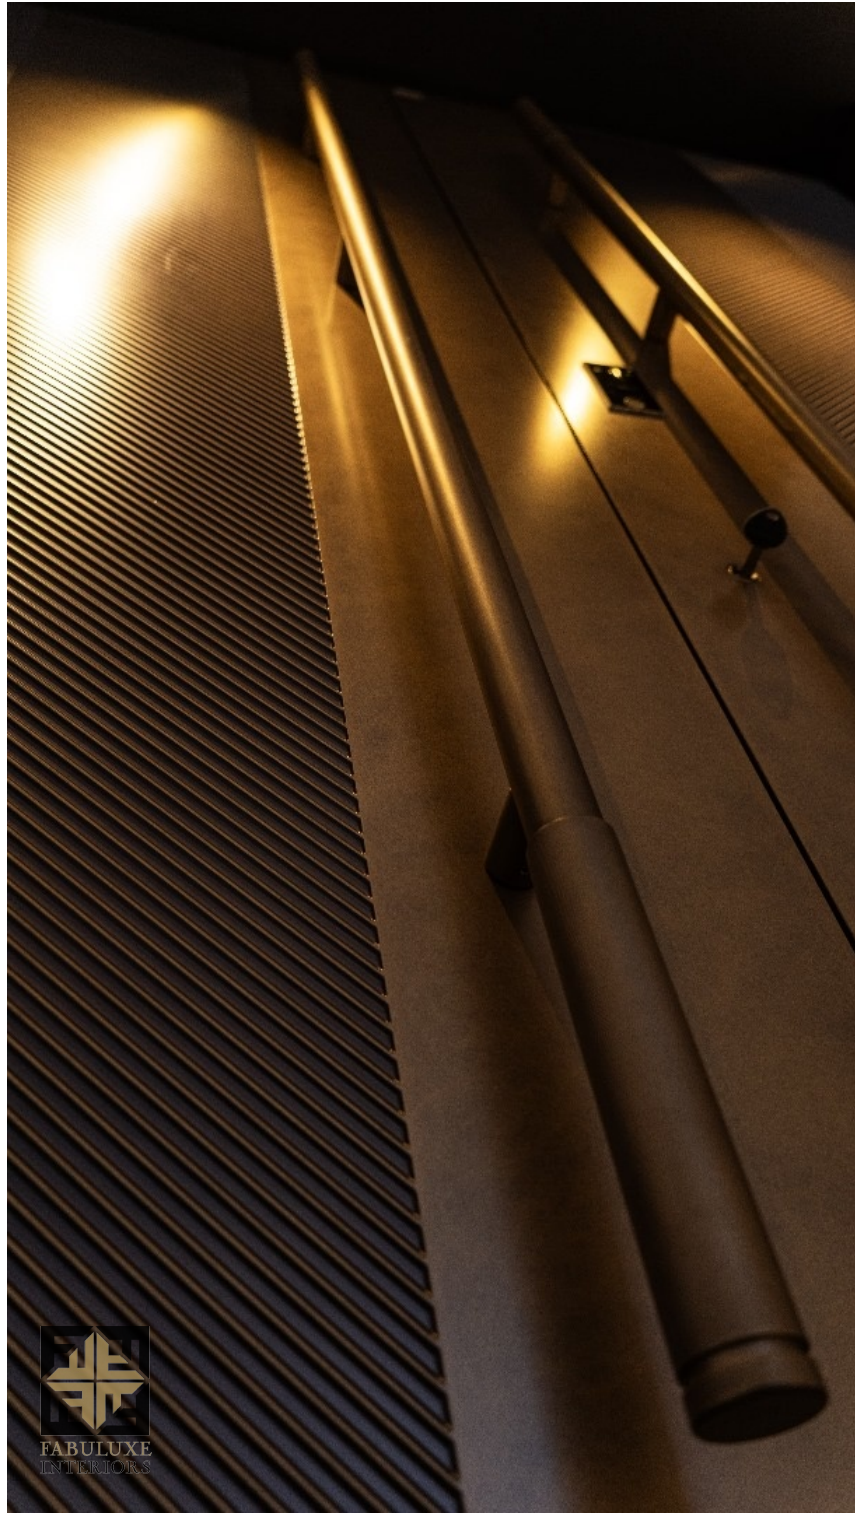

Toughness meets design and innovation.

Fabuluxe offers custom high-security doors – using the finest components from around the globe – designed and crafted specially for locations where discreet armor is needed, such as private residences and corporate offices.

A way of living that's memorable.

Interior Doors

Design meets quality and innovation.

In Fabuluxe's vision, doors represent a bridge between architecture and interior design. From purely functional elements, they transform into objects with strong aesthetic, cultural, and technological connotations, capable of constantly imagining new design scenarios. From hinged doors to sliding interior doors, to Rasomuro doors to pivot doors and custom doors, our creations are the ideal balance between craftsmanship and innovation.

Certified acoustic, top-quality finishes and materials, personalized service, and complete control over the entire supply chain, all made in Italy, are the core values of our doors. Product durability is the key value. Our acoustic doors combine sound absorption and acoustic insulation to obtain up to NRC 0.85 in absorption and ~40 dB in sound reduction. All doors are fitted with high-quality concealed hinges, magnetic lock and integral drop-down seals.

Fabuluxe offers different types of openings, including sliding, hinged, pivot and flush-to-the-wall models, to perfectly adapt to every space and style requirement. Each model is designed to maximize functionality without compromising aesthetics, offering a wide range of customizations to reflect your unique style

A way of living that's memorable.

Leather Door and Partition

Frameless Sliding Door

Metal Works
Metal meets imagination.

Fully Customized Brass Office Furniturs

From bookshelves to glass display cases to partitions and accent furniture, our metal creation bring together a comprehensive selection of furnishings for your living area.
